

Ocean View Avenue Comprehensive Transportation Study

Location

Ocean View Avenue from East Beach to Willoughby Spit (E. Ocean View Avenue to W. Ocean View Avenue)

Project Benefits

This project will advance Norfolk's Multimodal Transportation Master Plan, the 2015 Strategic Bicycle & Pedestrian Plan, and Vision Zero by promoting safe travel options for all modes, improving multimodal connectivity, and providing traffic calming benefits.

Scope of Work

This study will take a comprehensive look at how to improve the safety and accessibility of bicycles, pedestrians, and vehicles along the Ocean View Avenue corridor with particular focus on:

- Feasibility of expanding bicycle/scooter facilities and incorporating golf carts with bike lanes
- Feasibility of a speed reduction
- Improving pedestrian crossings and beach access

Project Status

Comprehensive study underway including traffic study, conceptual design development, and public engagement.

Project Schedule

- Study & concept development
 - ⇒ Initial public meeting & survey: March 2022
 - ⇒ Follow-up public meeting & survey: Late Spring 2022
 - ⇒ Final public meeting & survey: Mid-Summer 2022

Project Funding

Local funding for project development - \$158,000
Funding for design & construction - TBD

Construction Impacts

- To be determined

Civic Engagement

- Ward 1 (Councilman Thomas)
- Ward 5 (Councilman Smigiel)
- Superward 6 (Councilwoman McClellan)
